

The second batch information is like this. Due to the poor financial situation we started the 2 year program for only 5 students. For one teacher one month salary is Rs12000 and for 5 students' 22 days daily bread and stipend the cost is Rs10,500. Only one cook, the salary is Rs7500. House rent for the 5 students is Rs5500 and the church building electricity cost is Rs1900. The motor and electricity at students residence is Rs1800 and for the transport cost of Rs1200. For the milk for the 22 days is Rs2000 for the month. The total cost for one month is Rs42,400.

For the second batch student's we are not able to provide the GREEK AND SPOKEN ENGLISH teacher. Even though it is 5 students they are asking for the Rs60000 only why because the timings and days are same. If we provide the English teacher it is good for them to learn but due to our poor financial position only we are not able to provide the English teacher. We want to give the training to the students at least this year. By that we can send the students out by giving the complete training.

Then roughly it will be \$765 per month so we can give the complete training to the students. KRPTSchool runs for the two sessions and starts from morning 09.00 to evening 04.00. Your translator and preacher and youth Bible teacher is the KRPTSchool director and he is doing the free service for the KRPTSchool.

Please pray for our problems to be solved through your prayers. Daily we are praying for you all. Expecting a communication from you.

Yours in Christian Love

N. Vijayarao
